

O86B

Semiautomatic Bag Closing Machine

The Kwik Lok® O86B Semiautomatic Bag Closing Machine is engineered for unmatched reliability, performance and convenience of operation. Featuring a power breakoff and closure advance, the O86 will close at speeds of up to 30 bags per minute. The O86B is constructed primarily of stainless steel and is assembled with metric fasteners and can be ordered with a block or band printer.

TYPICAL APPLICATIONS

- Bakery products
- Produce

SPECIFICATIONS

Model 100

Height	18.5"
Width	10.5"
Length	18"

Models 200 & 200P

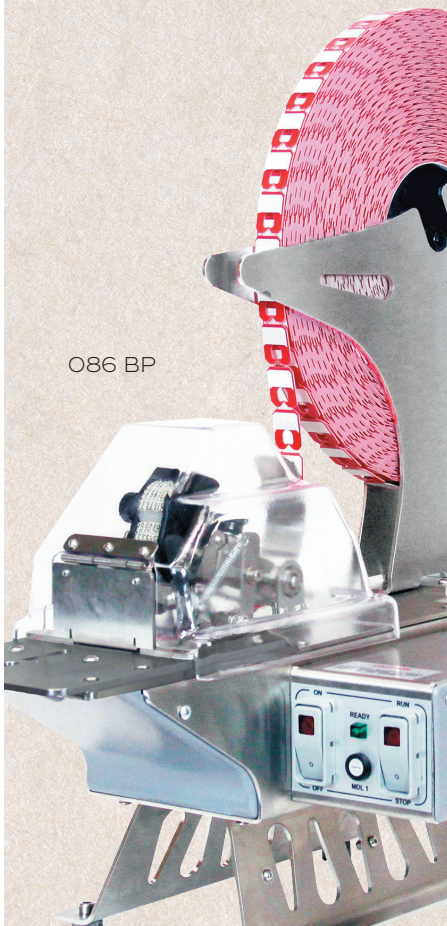

Height	22"
Width	10.5"
Length	18" (200) 23.5" (200P)

CLOSURES & CLOSURE-LABELS

Model 100 uses Series RJ (medium duty) closures.

Model 200 uses Series R (medium duty) and Series S (heavy duty) closures with no adjustments required. With the addition of the optional label conversion kits, Model 200 has the ability to use the Series CR, L and U Closure-Labels.

Model 200P has the same features as the 200 but also includes a printer. Printed copy is applied to a small paper label that is attached to the plastic closure. There are four printer model choices. Models B & C have a band type printer for printing date and/or code information. Models D & E have a block printer which holds grooved press-on rubber type that permits customizing printed copy.
